

Development Journal - Week #14

My Name: _____

1. Your baby is growing toenails now. Maybe toenails don't seem that important, but they often keep people from hurting themselves. Did you ever have an experience when you could have hurt yourself if your toenail wasn't there? _____

2. The baby's cheeks are getting fatter now. Think about how most babies have chubby little cheeks and how cute they make a baby's face look. God made babies to be cute partially to make us want to take care of them since they are so small and helpless. What do you think are some of the cutest things about babies? _____

3. It is important to do nice things for people in your family, like Mary did for her cousin Elizabeth. Think about some nice things you can do your family. _____
